

Updating the US Counties award

Scenario:

A user has imported an ADIF from another program and wishes to update the US counties awards or has just decided to pursue this award.

However although the state and county fields contain data the QSO Awards field do not contain this information.

Step 1

Using the Log4om Archive manager update any empty state and county fields using the “Search Parameters” and “Update info” facilities

Step 2.

Make a backup

Step 3

Double check that you carried out step 2 ☺

Step 4

In QSO Archive manager check the enable updates check box

Step 5

Click the “Select all” button at the bottom of the QSO Archive manager window

Step 6

In the Click the “Field Update” button

Step 7

You did do step 2 didn't you ☺

Step 8

Copy and paste this update query into the “Query” field

```
update LOG set QsoAwards = QsoAwards || ';'USA-CA@' || upper(log.State) || '-' ||  
upper(log.Cnty) where DXCC = 291 and log.State <> '' and log.Cnty <> '' and  
TRIM(qsoAwards) <> '' and instr(qsoAwards, 'USA-CA') = 0 and  
instr(upper(log.Cnty), upper(log.State) || ',') = 0;
```

Step 9

Check all of the red warning check boxes and click the “Go ahead” button

Click OK on the small window

Step 10

Clear the Query field and then copy and paste this update query into the query field.

```
update LOG set QsoAwards = QsoAwards || 'USA-CA@' || upper(log.State) || '-' ||  
upper(log.Cnty) where DXCC = 291 and log.State <> '' and log.Cnty <> '' and  
TRIM(qsoAwards) = '' and instr(qsoAwards, 'USA-CA') = 0 and  
instr(upper(log.Cnty), upper(log.State) || '-') = 0;
```

Step 11

Check all of the red warning check boxes and click the “Go ahead” button

Click OK on the small window

Step 12

Again clear the Query field and then copy and paste this update query into the query field.

```
update LOG set QsoAwards = QsoAwards || ';USA-CA@' ||  
replace(upper(log.Cnty), ',', '-') where DXCC = 291 and log.State <> '' and log.Cnty  
<> '' and TRIM(qsoAwards) <> '' and instr(qsoAwards, 'USA-CA') = 0 and  
instr(upper(log.Cnty), upper(log.State) || '-') > 0;
```

Step 13

Check all of the red warning check boxes and click the “Go ahead” button

Click OK on the small window

Step 14

Again clear the Query field and then copy and paste this update query into the query field.

```
update LOG set QsoAwards = QsoAwards || 'USA-CA@' ||  
replace(upper(log.Cnty), ',', '-') where DXCC = 291 and log.State <> '' and log.Cnty  
<> '' and TRIM(qsoAwards) = '' and instr(qsoAwards, 'USA-CA') = 0 and  
instr(upper(log.Cnty), upper(log.State) || '-') > 0;
```

Step 15

Check all of the red warning check boxes and click the “Go ahead” button

Click OK on the small window

This completes the update, the “Massive QSO update” window may now be closed
